Reasons for excisions:

Not Applicable

**Summary of reasons
for classification:**

The DVD entitled *Black And White Blow Pop 2* is classified as:
Objectionable.

The publication is a DVD comprising a sexually explicit feature as well as a number of shorter components. The feature focuses exclusively on depicting women performing fellatio in a manner that is consistently degrading, dehumanising and demeaning. The relentless close-focus shots combined with some of the men's degrading treatment of the women is the dominant effect. The availability of this material is likely to be injurious to the public good given the encouragement it gives to a predominantly male audience to find women's degradation by men as sexually arousing, and the dehumanising and demeaning manner of presenting women as a collection of orifices. Frequent viewing of this material by some people is likely to encourage misogynistic attitudes.

In this instance excisions were considered unsuitable due to the high extent of the degrading, dehumanising and demeaning material. This classification interferes with the freedoms set out in the New Zealand Bill of Rights Act 1990, but the outcome is a reasonable limitation and consistent with Parliament's intention. It reflects the concern of a free and democratic society to prevent the availability of publications that are likely to be injurious to the public good for reasons specified in s3(3) of the Films, Videos, and Publication's Classification Act 1993.
